A Tribute to Durward Bogges*
and his legacy
*The father of Southwest Florida Geology

1991 to 2014

For more than two decades a group of professional and educational organizations have joined together each year to host an annual meeting to discuss regional water resources issues such as water supply, water quality, surface water, groundwater, the Caloosahatchee Basin, Estero Bay, climate change, economics, hurricanes, floods, & drought. Conference proceeds support student scholarships.
